NOTICE

This book is Government property. The finder is requested to mail it to the Bureau of Biological Survey, Department of Agriculture, Washington, D. C., or deliver it to the official whose name appears above. A detachable addressed frank will be found on the last page; by tying this on the cover the book may be mailed without postage or wrapping if fastened shut.
To Dr. Frank P. Rine

Dr. Frank P. Rine

23rd St. Berkeley, Cal.

Jan. 24, 1916

Dear Dr. Rine:

I am writing to ask your advice on a matter that has been worrying me. I have been experiencing some unusual symptoms lately, and I am not sure what they might be. I would appreciate it if you could take the time to look into this matter, as I believe it is important for my health.

Sincerely yours,

[Your Name]

Sept 16 1776 made a
trip with Makuen & his
Chief Asst Singey to
Brucham City & the
Rai River Makuen has about 2000 acres
planted in his public hunting
ground. He is raising about 400
pounds wild rice & about 200 pounds for
2 men each.
The tribe's public hunting ground
rops about 17000 acres.
Of this area Makuen plans to
graze about 12000 acres
Makuen & Singey agree
that the area to be
reclaimed
by government about 8'/2 m & 4 m.
about 2 1/4 miles = Lat 75 m.
The dikes would contain about 150 sq. m. = about 1,500 tons.

The dikes should be made of driving gravel 8 to 10 ft. wide. Driving gravel should be placed in double line about 10 ft. wide.

Shoveling a line of plants with a 3 x 10 in. spade.

Once planted about 30" or more.

Rounded top to trap water.

Bend River, 8 PM.

Experience indicates that 6000 a mile is a liberal estimate for zig-zag dikes.

A man (unknown) from US Land Office about 7 PM. sugar in the lake in a small boat. Bay country.

Water content.

Paul H.
Col. Cook, Chief of Staff 102nd Div. Aetna
Cnft, PDP. Interested in having an airplane photographic survey? The Rappaport ground with Myron to have a. See map.
Madison informs me that duck sickness has killed twice more ducks to say nothing of injuries to the surf zone than known to the black hunters.

The duck business in years to return gave numbers as follows:

- 1909-10-11-12-13 ducks about 10,000
- 1910-11-12-13-14 ducks about 25-30,000 a year
- 1915-15-16-16-17 ducks about 15,000 a year

Total 1921-17-18-19-20 ducks from all years about 75,000

Ducks for sale 1920-17-18-19-20 ducks from all years about 20,000

Chesapeake Club 600-700
Beaufort Club 800 acres
Duckville Club 1600 acres of good
Army Club 4700 acres

Melbourn Reservation
Sept 21, 1976

Visited the Reservation today with Wachesaw, Benson & L.S. Near Stiles.

Owing to the screeching drake years, the water in lake has received until it is now only in the lowest part of lake not coming off and about 5 miles.

The number of breeding birds have tremendous decreased

In 1911 about 3200 must have been taken at Lake Melbourn.

In following year from 3000 definitely, not over 1000 most likely due to trapping & destruction.
Season 77 1926 - 4 gr. bison 2 bant all on.

About 40 p.m. while going north with light steam train 3 p.m. 4 o'clock. The

Dr. Poole

May 1976
Bill, please—Scared out of my wits.

How do I know what I actually feel?

Clyde (Randy May 20, 20th)

Dickie—Bill—Daddy

Bill's very very late
A number of long-distance railroads in the United States are facing financial difficulties due to the increased costs of maintenance and repairs. The situation is further compounded by the declining demand for long-distance travel, which has led to a decrease in passenger revenue. To address these challenges, railroads are exploring various strategies, including cost-cutting measures and the introduction of new services to attract more passengers.

In addition to these efforts, railroads are also investing in new technologies and infrastructure improvements to enhance efficiency and safety. This includes the implementation of advanced signaling systems, improved track maintenance, and the modernization of locomotives and railcars.

Despite these efforts, the financial situation remains challenging for many railroads. The industry continues to monitor the market conditions and explore new opportunities to diversify its revenue streams and remain competitive in the long run.
